Annual Review 2019

St Martins
PARTNERS IN MENTAL HEALTH RECOVERY

A leading provider of accommodation and care in London for people with learning disabilities and mental health needs.

About us

St Martins is a leading provider of mental healthcare and accommodation in London. We deliver positive outcomes for people with mental health needs, learning disabilities and offender backgrounds. We offer 24 hour support and a safe place in the community to become as independent as possible, when people move on from hospital wards, prisons or placements at other providers.

Mission

Our mission is to improve the pathways and opportunities for people stepping down from secure hospitals, prisons, mental health and learning disability services. We do this by enabling the recovery of our service users in order to maximise their independence and safety in the community.

Vision

St Martins aim to be the most effective mental health recovery partner in London for people who have enduring and complex needs.

Values

- We believe that everyone associated with us should be treated with fairness, justice and respect.
- We believe that everyone has the potential for positive change.
- We are committed to promoting diversity and equality in all our activities.
- We expect staff and Board members to carry out their responsibilities with integrity and probity.
- We are committed to upholding and promoting the legal, civil and human rights of service users.
- We have an organisational culture that emphasises and promotes professionalism, innovation, performance and good practice in service delivery.

Chair & Chief Executive's Statement

This year St Martins celebrates its 40th birthday. St Martins was founded in 1979 by the Catholic Fund for Homeless and Destitute People, and although much has changed in those forty years, the organisation continues to provide high quality services to some of the most vulnerable and marginalised people in our society. We are delighted to present St Martins' annual review for 2018/19. We hope you enjoy reading about our work, the lives of our residents and their journeys of recovery.

St Martins specialises in providing services for:

- People with forensic mental health backgrounds
- People with a dual diagnosis of mental illness and learning disability
- People with complex needs and challenging behaviours.

We have continued to focus on the challenges presented by the changes in our operating environment, particularly the increasing complex needs and challenging behaviour of new referrals to our services. Despite the difficult operating and financial environment we have achieved excellent outcomes, and further growth in our core business.

St Martins principal strategic goal is to be the leading provider of residential community services for people with mental health problems including forensic backgrounds, complex needs and challenging behaviours and dual diagnosis of learning disability, in London, by 2021. We are at the end of the first year of a new Business Plan which commits the organisation to grow by 30% over the next 3 years, and are on track to achieve this target.

NHS England has established an ambitious transformation programme that is trialling New Models of Care in Forensic Services with an additional £94 million of support having been released to transform services. It is expected that further resources will become available quickly, through the savings released by reducing spot purchasing of secure bed capacity and improving the management of out-of-area placements. This will lead to further demand for community placements in London. St Martins have opened two new services positioned to work with the South London Partnership in South London and the North London Forensic Consortium. Both organisations have been awarded contracts by NHS England to develop New Models of Care in the Secure Care Programme.

Our achievements last year include:

- In June 2018 St Martins opened a new 12 bed supported housing service in LB Haringey in a building leased from Barnet Enfield and Haringey Mental Health Trust.
- In July 2019 St Martins opened Ferrini House in LB Lambeth as a high support housing project for people with complex mental health problems. Following a complete refurbishment, the service now has 18 en-suite rooms in a modern, spacious, fit for purpose building.
- We have continued to review and improve our services to tenants and residents and this is evidenced by the results of our tenants survey carried out in February 2019. 72% of residents rated St Martins' services as always good or mostly good, down from 79% in 2018. No residents rated the services they received as poor.
- Upgraded to Outlook 2016 across all projects.
- The establishment of mini co-production groups across all projects.
- Full compliance with GDPR introduced in April 2018, with the exception of a rent accounting package which is due to be replaced in 2019.
- Recruitment of a specialist Drug and Alcohol Worker, and appointment of a former Service User as the editor of Connect (service user quarterly newsletter).
- Appointment of a 2nd Operations Manager to increase management capacity and support for Project Managers.

Our task is to remain informed and engaged with our external environment and the many changes happening, and ensure we continue to provide personalised, value for money services that help our service users develop their full potential and lead more independent lives. We are aware that some of these changes may have a negative impact but will also present opportunities for us to develop new services in response to identified need. We will remain agile and flexible in responding to opportunities and gaps in the market as we seek to achieve our strategic ambition of being the leading provider of community forensic services, and dual diagnosis of learning disability in London.

Our plans for 2019/20 include:

- Restructure our Marketing and Communications function to maximise referrals and increase occupancy in all projects.
- Implement psychologically informed environments across all our services.

We are very conscious of the financial pressures on our commissioners and statutory partners in both local authorities and NHS organisations. We will continue to position St Martins as the leading provider of recovery services to people with forensic histories and complex mental health problems. Our offer will continue to be that St Martins can provide high quality, innovative and value for money services for people leaving secure hospitals and similar settings that can enable them achieve independence safely within 2-3 years.

Our staff continue to demonstrate the passion and commitment that this often difficult and demanding work requires. We take this opportunity to thank them, our Board members and all our partners and stakeholders, for their contribution to the mission which we all share at St Martins, and have done for 40 years; helping our residents develop their full potential and live life as independently as possible.

Service User Survey 2019

Our annual Service User Survey was carried out by St Martins in February/March 2019. Prior to carrying out the survey, we had reviewed the questionnaire at the co-production meeting with service users. During this year's survey, the service users at Bruce Grove were still not very settled and so they did not complete any questionnaires.

Service User Response

resutls from 2019 **63 (68%)**

down from 2018 **64 (75%)**

- **32% =** In St Martins less than a year
- **21% =** 3- 5 years in St Martins
- **62% =** BME (Black Minority Ethnics)

Majority = Male aged = 53% over 41 years (2019) from 33% (2018)

Weekly Contact = 76% (2019) Up from 64% (2018)

Customer Service = 86 % (Good)

Satisfaction = 76 % (2019), 79% (2018)

Reasons

- Longer stay less satisfied. 89% in year 1 more satisfied.
- With support plans in place = more satisfied (77%)
- Feeling Safe = more satisfied (81%)

Complaints

68% know how to complain (2019 down from 81% in 2018)

88% satisfied with the procedure

Recovery: *Do you know the approach?*

73% had attended an event organised by St Martins, of those who had not attended an event, 9 were within their first year of being at St Martins.

79% placement reviews.

76% support plans.

72% said that thier hobbies and interests were included in the support plan.

29% wanted to be informed about current news and events whilst 22% did not want any information.

17% got their news from Connect compared to 25%

57% (2019) DOWN FROM **67%** (2018)

80% WITH ST MARTINS LESS THAN A YEAR

2018 **36%**

- **51% =** Do not have the star
- **70% =** Aspired to become independent
- **54% =** Want more self-confidence

Maintenance

56% had reported a repair in 12 months a decrease from 70% in 2018 - and plumbing was the most common complaint.

Repairs completed on the same day had fallen to 17% from 24% in 2018 and one in 10 or 11% of the repairs took longer than a month.

Although 75% were satisfied with the repairs service, 12% rated it as being poor.

Additional Comments

On the whole the service is reliable, safe and very good and well run. The staff on the whole are pleasant and polite

It's a very sufficient hostel because I have lived in many before his one

St Martin's is a home away from home

They're very good

St Martins helps me to keep myself together and I have enjoyed my time being here

I would like to be prompted more for events at least a day or two before

I am pleased

> “Coming to the group is important to my wellbeing. It is good to have that feeling of belonging somewhere.”

Service User Story

Co-production has helped me

By Mansur

Hi to all the readers. My name is Mansur Aman, I am an ex-resident of St Martins Chalk hill Road.

St Martins Co-production work has really helped me a lot.

It is a meeting where I can raise issues & complaints. I can also discuss any physical or mental health problems with the group.

It is nice to talk and listen to what is being discussed. I am free to make a contribution.

Coming to the group is important to my wellbeing. It is good to have that feeling of belonging somewhere. I can smile and a laugh with the guys. And I am paid for my time.

Through the Co-production I have been involved in much gardening projects. I have also designed and facilitated ‘Chairing your own CPA’ training with Harpreet and Dawn. This involved visiting Chalk hill, Wilton Villas, New North Road and Davenant. I explained to residents the opportunities in chairing your own CPA.

I was at the Summer Fair this year. I got involved with the Art competition and played Badminton.

I now live in a project called: ‘Instant Care Solutions’. Here I can practice to be more independent. I live in a house with 6 others. I have my own facilities, just need to share the kitchen. We have a lovely garden. I live in Heston, the area is not too bad.

Employability, Wellbeing & Recovery Star

Summary of Courses From April 18 until August 19

April 18 – Wellbeing Course

2 residents completed 2 units

5 residents completed all 5 units

June 18 – Employability Course

2 residents completed 2 units

1 resident completed 1 unit

5 residents completed all 6 units

July 18 – Wellbeing Course

1 resident acted as peer/co-tutor support during the course

2 residents completed 1 unit

3 residents completed all 5 units

September 18 – Wellbeing Course

1 resident completed 2 units

2 residents completed all 5 units

September 18 – Employability Course

1 resident acted as peer/co-tutor support during unit 2

2 residents completed all 6 units

January 19 – Employability Course

1 residents acted as peer/co-tutor support during the course

1 resident completed 3 units

2 residents completed 1 unit

2 residents completed all 6 units

April 19 – Wellbeing course

4 residents acted as peer/co-tutor support during the course

1 resident completed 2 units to complete all of the course

1 resident completed all 5 units

July 19 – Recovery Star Course

4 residents at Chalkhill Rd have either shown interest and started to look at life areas of the recovery star

4 residents at Davenant Rd have either shown interest and started to look at life areas of the recovery star

1 resident at New North Rd has started the course and committing each week to sessions

1 resident was supported to find voluntary employment in a local café.

5 residents following studying either the employability or wellbeing course have gone on to act in the role as peer/co-tutor during other roll outs of these courses.

Wilton Square Gardens

Well done to Dawn and her team for working with Chris Ingram (Park Ranger, Islington) to tidy up and look after Wilton Square. This opportunity was open to residents from Wilton Villas and New North Road. This activity has taken place twice. According to Chris there are other opportunities available in parks across Islington.

Something like this also helps to build bridges with locals. One local commented on the nice work and commitment from our service users.

Some quotes from our guys:

"Dawn and Chris are very inspirational. Chris is a solid Englishman"

"This has been very therapeutic and it is nice to give back to the community"

"I feel very proud of our teamwork. We give to Wilton Square and they have given to us"

Co-production at St Martins

Co-production was first introduced at the beginning of 2017, by Vimala Uttarkar, who is the head of Operations.

If you are reading this and thinking, 'what is Co-production?'

Co-production is when two sides work together, in an equal and reciprocal partnership, towards a shared goal. St Martins would like its staff to work with service users as a team. Co-production is a ground breaking philosophy. Co-production sees people as not just people but assets. This is done by drawing out what skills and knowledge people have. We have all been on a journey. It is that experience we are interested in. Help us to shape the future of St Martins. It does not matter where you might be in your Recovery, everyone has something to contribute.

St Martins has monthly Co-production meetings at Head Office. Take this as your first step in working with St Martins. You will be paid for your time. Once you become a regular member of the Co-production meeting, other opportunities (paid) will open up.

At the meeting you will work with other service users from different projects.

So, what have the members achieved so far. Here are just some:

- **In-House job opportunities:** Each project has identified small paid jobs in your house. For example, cleaning, looking after the garden.
- **Grow fresh produce:** The various gardening opportunities around all projects.
- **Planning & Supporting Events:** St Martins Summer Fair, World Mental Health Day.
- **Inspirational Talks:** Service users have been given the opportunity to share their Recovery story, to help and inspire others as a beacon of hope.
- **Monthly Newsletter:** A service user has been given the opportunity to be co-editor of St Martins Newsletter.
- **Recovery Training:** A service user is working with management to deliver Training to Staff.
- **Welcoming New Residents:** We are currently looking into a 'buddy' role for service users.
- **Policies:** Various St Martins policies are reviewed with Service Users, giving us a right to comment & amend. We recently talked about policies regarding the internet.

MINI- CO-PRODUCTION AT YOUR PROJECT

After the success of Co-production work, Vimala felt we needed a smaller Co-production group specifically for each project. This work is led by Harpreet and began last year. For example, Chalkhill Road staff & residents will meet once a month. This is where you have the opportunity to discuss what changes & ideas you would like to see at your project.

This work has been carried out in stages. Last year we opened the floor to staff & residents to say what they would like to see. In the end this was drafted into a report sent to Vimala.

This year we are trying to action items in the report. Again, you will be paid for your time.

Wilton Villas: There are two residents that would like to facilitate weekly groups, talking & learning about different topics that would improve life skills.

- **Chalk hill Road:** Residents felt that they did not understand their own individual pathways to move on from St Martins. It was suggested that the 'Recovery Star' would be an ideal solution as its purpose is to map your journey. Things you are good at and what areas need work.
- **New North Road:** residents said they would like staff to make contact with external organisations such as 'Hillside Clubhouse' and MIND. We also discussed the importance of brushing up on English and Maths skills. We have one residents who will work with Harpreet to set up a hearing voices group.
- **Davenant & Caledonian:** residents raised that they do not have much contact with staff during the day. Since, a new member has been recruited and things have really improved. Harpreet will liaise with Gabby to decorate (paint) the garden fence and create art work for in door areas.

Ferrini House

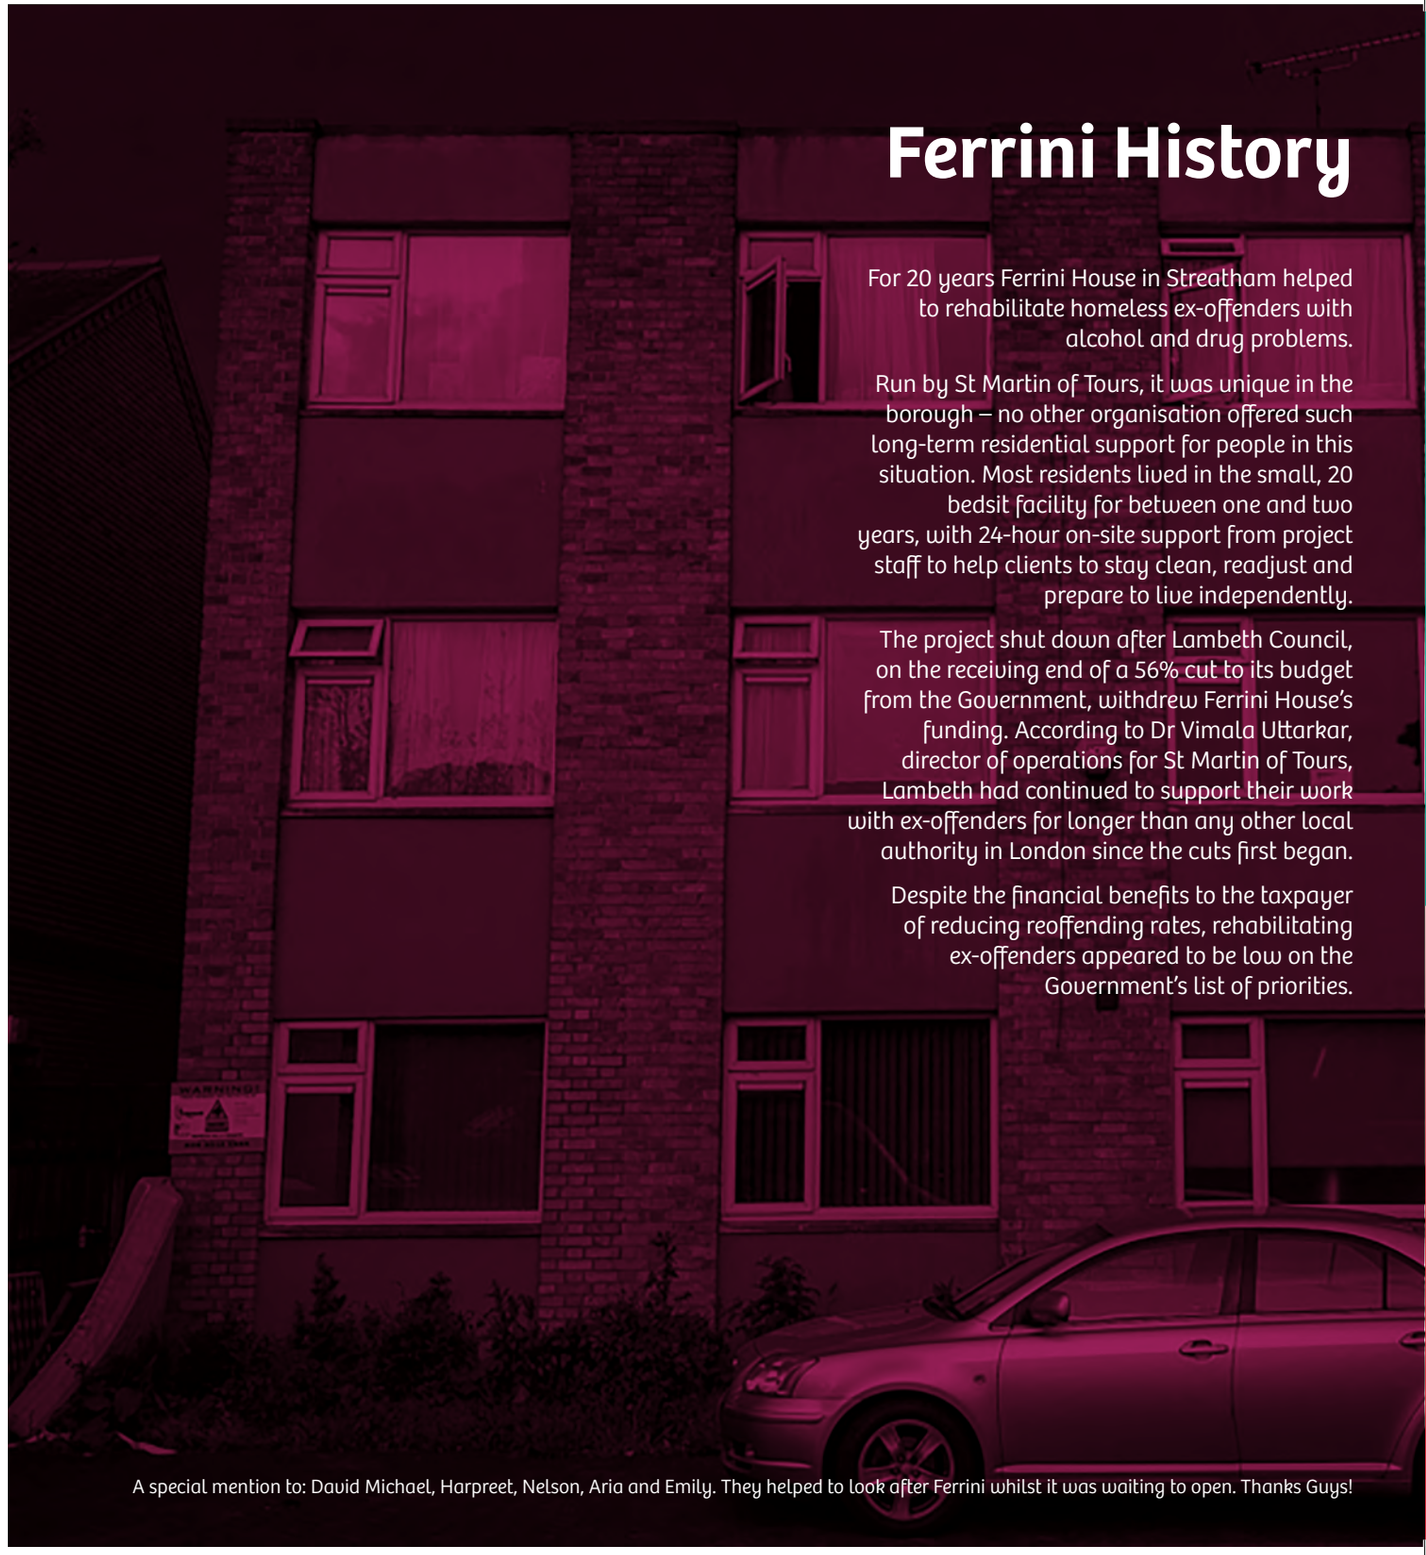
Welcome

The most anticipated Ferrini House, drum roll... is open!

Ferrini House is a supported living scheme for men with complex mental health needs, located in Streatham, Lambeth.

Ferrini was closed for some years whilst refurbishment work was carried out. The work was completed in July 2019 and opened 8th July. They currently have two residents.

It does look pretty impressive! All rooms are en-suite, there is a very large and modern kitchen on the ground floor + smaller kitchens on each floor. They have a beautiful conservatory that leads into the garden, which has been designed with a lot of thought and care. Smart TV, carpeted lounge, the list goes on and on! Congratulations to St Martins.



Ferrini History

For 20 years Ferrini House in Streatham helped to rehabilitate homeless ex-offenders with alcohol and drug problems.

Run by St Martin of Tours, it was unique in the borough – no other organisation offered such long-term residential support for people in this situation. Most residents lived in the small, 20 bedsit facility for between one and two years, with 24-hour on-site support from project staff to help clients to stay clean, readjust and prepare to live independently.

The project shut down after Lambeth Council, on the receiving end of a 56% cut to its budget from the Government, withdrew Ferrini House's funding. According to Dr Vimala Uttarkar, director of operations for St Martin of Tours, Lambeth had continued to support their work with ex-offenders for longer than any other local authority in London since the cuts first began.

Despite the financial benefits to the taxpayer of reducing reoffending rates, rehabilitating ex-offenders appeared to be low on the Government's list of priorities.

A special mention to: David Michael, Harpreet, Nelson, Aria and Emily. They helped to look after Ferrini whilst it was waiting to open. Thanks Guys!

Ferrini House Manager: Bela Benichou

I joined St Martins in May 2019, as I was looking for a new challenge in my life. I have experience in managing mental health and supported living services. We have a diverse team with numerous skills and experiences; we are ready to put these skills and experience in practice at Ferrini House.

Solange

This is my first job with St Martins as a support worker. I have worked with ex-offenders. I am loving it at Ferrini House. My goal in life is to help people and now I am.

Saifur

It is my absolute pleasure to join Ferrini house, St Martin this year after completing my Psychology MSc. Though I have been here very short time still I highly value this organisation due to its contribution towards the common good to the society. It cultivates strong professionalism within staff and encourages cooperation among each other. During my short time I sense that that the majority of the service users have a very positive regard to staying in St Martins.

Belles

I am happy to be part of a new project. I am excited to see what other residents will bring.

Green Fingers at St Martins

Gardening has become one of the most popular activities amongst St Martin's service users. We are blessed with excellent gardening space. Horticulture is very therapeutic. Fresh produce such as tomatoes, potatoes, onions, coriander are grown and used in cooking sessions. There is something very special about eating what you've grown. Service users also get involved with the maintenance of the gardens. Here is what is happening in some of our projects:

Bruce Grove:

Over the past 6 months there has been a regular 'dig day' activity at Bruce Grove. As a fairly new project Bruce Grove had a lot of work to do in their garden. All Service users and staff were invited.

One resident took care of the raised bed, planting and a group of us did some maintenance work on the soil, which was initially in a bad condition.

Wilton Villas:

Dawn & Harpreet have been working with service users to do some gardening work at Wilton Villas. One service users is being paid to do daily garden maintenance.

Chalk hill Road:

Ex-resident David Michael has been recruited to look after the garden and handover some responsibility to other current residents. David has a special jet washer to clean the paving slabs!

Recovery
By Harpreet

St Martins aims for its service users to become independent, move on and find some meaning to their lives. Although staff already work hard in a recovery orientated way, we can still learn. One of the ways of learning is Co-production. Over the last 2 years Derek Forbes and I have been offering learning on recovery to staff. Derek and I have brought our knowledge, experiences and journey's together into a course. So far, we have had very good feedback.

This type of work helps others but it also helps me. I feel like I am making good use of my lived experience. It really is unimaginable how my life turned out.

For Recovery to happen we must ensure that we work hard on the way we build relationships with our service users. Story telling is very powerful, let us use it carefully.

The environment we live in is very important. We want to live somewhere that projects positivity. This is down to us, the staff, facilities, activities and our peers.

There are barriers and challenges that we face. Some of us are ready to move on, however there are many issues around working with local authority and care teams. Stalling a positive journey can have a negative impact. We know from our survey that our service users do become unhappy if their stay in our service is prolonged.

There was a time that I hit rock bottom. Not even the tiniest of hope that things would get better. Being able to get up in the morning and have a day where I did a few things for myself, gave me hope. That was the turning point in my life. As my journey progressed I managed more and more. Even today I strive to be better.

Staff (including hospital) helped me throughout my recovery, the good days and bad. Sometimes I think back to the life I had when I was younger, wishing I could turn back time. But I am a different person and I am happy with who I am today. Recovery is not about turning back the clock. It is about building a new life.

If you are a new staff member and struggling to understand Recovery. Think back to a time when something very bad happened in your life. I did that feel? How did you recover?

> "There was a time that I hit rock bottom. Not even the tiniest of hope that things would get better. Being able to get up in the morning and have a day where I did a few things for myself, gave me hope."

Auditor's Statement

Independent Auditor's Statement to the Board of Management of St Martin of Tours Housing Association Ltd

We have examined the extracted Statement of Comprehensive Income and Statement of Financial Position for the year ended 31 March 2019 set out on pages 16 and 17.

This report is made solely to the association's members, as a body, in accordance with the Co-operative and Community Benefit Societies Act 2014. Our audit work has been undertaken so that we might state to the association's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to any party other than the association and association's members as a body, for our audit work, for this report, or for the opinion we have formed.

Respective Responsibilities of the Board of Management and the Auditor

The Board of Management are responsible for preparing the extracted Statement of Comprehensive Income and Statement of Financial Position in accordance with applicable United Kingdom law and the Co-operative and Community Benefit Societies Act 2014.

Our responsibility is to report to you our opinion on the consistency of the extracted Statement of Comprehensive Income and Statement of Financial Position with the full audited financial statements.

We have not read any other information contained in the Annual Review except for pages 16 and 17 and do not give any opinion on whether the content of the Annual Review is consistent with the extracted Statement of Comprehensive Income and Statement of Financial Position on pages 16 and 17 or with the company's audited financial statements.

Basis of opinion

Our audit report on the full annual financial statements of St Martin of Tours Housing Association Ltd describes the basis of our audit opinion on those financial statements.

Opinion

In our opinion the extracted Statement of Comprehensive Income and Statement of Financial Position is consistent with the full annual financial statements of St Martin of Tours Housing Association Ltd for the year ended 31 March 2019.

Kingston Smith LLP,
London
EC1M 7AD

4 July 2019

Board of Management Statement

The extracted Statement of Comprehensive Income and Statement of Financial Position set out on pages 16 and 17 contains information extracted from the audited financial statements for the year ended 31 March 2019, but is not the full audited financial statements. The full financial statements were approved by the Board of Management on 4th July 2019 and will be submitted to Homes England.

The auditor has issued an unmodified report on the full financial statements and on the consistency of the Report of the Board of Management with those financial statements.

The extracted Statement of Comprehensive Income and Statement of Financial Position does not contain sufficient information to allow for a full understanding of the financial affairs of the association. The extra details are to be found in the full Report of the Board of Management and annual financial statements referred to above.

Copies of the audited financial statements, including the Report of the Board of Management, may be obtained from the association's Head Office.

Senior Management Team

Chief Executive

John Thompson MA, MSc, BA

John has been the Chief Executive of St Martins since 2004. He has over 25 years' experience of developing and managing services in mental health, substance misuse, criminal justice and housing. He was Director of Operations at ARP for 7 years, a London drug and alcohol agency and prior to this worked in rough sleeping services in London for 6 years. He is the Chair of Stuart Low Trust and a strong advocate of the Recovery Approach and service user involvement.

Director of Operations and Human Resources

Dr. Vimala Uttarkar BSc, MA, MPhil, PhD

Vimala is a qualified social worker, with extensive experience of managing statutory mental health services having specialised in rehabilitation and forensic services for over 15 years before moving to St Martins in 2005. She is an expert mental health advisor with the Care Quality Commission, reviewer for the Journal of Social Work Practice, Chair of Aid A Woman and a Trustee with Camden Canals and Narrow Boats Association. She holds a doctorate from the University of East London and is a visiting lecturer for the Doctoral Programme at the Tavistock Centre, where she mentors and supervises research students.

Director of Finance and Company Secretary

Philip Bowles FCA

Philip is a Chartered Accountant and worked in group finance for property development and investment companies, including listed property group Bilton plc before becoming Finance Director of an IT development group. He joined St Martins as Director of Finance & Resources in 2001 and is responsible for the Association's financial strategy, IT and corporate risk management. Philip recently completed a 6 year term sitting on the Audit & Risk Management Committee of the National Housing Federation.

Director of Development and Property Services

Jon Mumford BSc, Dip.Arch

Jon is a qualified architect who has worked for various local authorities, as an Associate in a private architectural practice and in retail development. Moving into the voluntary sector in 1991, he joined Providence Row HA as Development Director and during his 10 years at PRHA developed over 400 bedspaces for homeless people. In 2002 he moved on to Cara Irish HA, before joining St Martins in 2009. Jon is a Trustee of Providence Row Charity and a Board Member of Rickmansworth Churches HA.
